Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Monday 16 Aug 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming cloudy overnight with outbreaks of rain, easing through Tuesday.

This Evening and Tonight:
A dry evening with sunny spells. However, cloud will spread in from the west towards midnight, bringing outbreaks of rain, as well as patches of hill fog to the Pennines and Cheviot Hills. Minimum temperature 10 deg C (50 deg F).

Tuesday:
Largely cloudy with the odd spot of light rain and drizzle, mot likely in the west. Some brighter spells are possible in the east, particularly later in the day. Maximum temperature 20 deg C (68 deg F).

Outlook for Wednesday to Friday:
A quiet but rather cloudy spell of weather to end the working week, with a little rain probably most likely Thursday. Temperatures around average, but with mild nights given cloud-cover.
